*Research Project will start from 3rd Semester. However, marks for this project will be counted in the 4th Semester only.

** Comprehensive Viva-Voce in the 4th Semester will be based on papers taught in 3rd and 4th Semesters.*
Objective: The objective of the paper is to acquaint the students with the importance of management in our day to day life, help student to trace the evolution of Management thought and appreciate the various functions of management.

SECTION - A
Management: Definition, nature, purpose and scope, Functions of a manager, Ethics and social responsibility of management, Organizational Environment.

SECTION - B

SECTION - C
Planning: Types of plans, process of planning, Management by Objectives, Nature and purpose of strategies and policies.
Decision-Making: Importance and steps in Decision Making, Decision making under certainty-programmed decisions, decision-making under uncertainty, non-programmed decisions, decision tree, group aided decisions, Brain storming.
Organizing: Concept of organization, process of organizing, bases of departmentation, Authority & Power, Line & Staff relationships
Delegation-authority, responsibility, accountability, Steps to make delegation effective
Decentralization-purpose and types of decentralization, Span of Management.

SECTION - D
Coordination: Need, factors which make coordination difficult, techniques to ensure effective coordination.
Control: planning-control relationship, process and techniques of control, Human response to control, Types of Control- Feed forward control concurrent Control (Real Time Information & Control), and Feedback Control.

Suggested Readings:
Objectives: To provide students with an understanding of basic economic principles of production & exchange-essential tools in making business decisions in today’s global economy. The participant is expected to gain understanding of how the economy works, covering microeconomic description of business applications, including pricing for profit maximization, price elasticity, market structures and modeling of business in varying economic climates.

SECTION – A

Introduction to Managerial Economics: Nature Scope and Importance of Managerial Economics.

Basic Concepts in decision making: Opportunity cost principle, incremental principle, time element in decision making.

Distinction between micro and macroeconomics.

SECTION – B

Demand Concepts and Analysis: Individual Demand, Market Demand, Kinds of Demand, Determinants of Demand, Demand Functions, Demand Schedule and Law of Demand.

Elasticity of Demand: Concept, Types, Measurement and importance.

Demand Forecasting: Sources of Data Forecasting-Expert Opinions, Surveys and Market Experiments, Time Series Analysis-Trend Projection, Barometric Forecasting, Leading Indicators, Composite and diffusion Indices.

SECTION – C

Production Function: Concept, types: Cobb Douglas and CES Production Function, Returns to Factor and Returns to Scale.

Cost concepts and Analysis: Concept of Cost, Short run and Lung-run Cost Curves, Relationships among various costs, Break-even Analysis.

Revenue Curves: Concept and Types.

SECTION – D

Monopoly: Characteristics, Equilibrium Price, Profit Maximizing output in Short Run and Lung Run, Price Discrimination.

Imperfect Competition: Monopolistic Competition ð Price output determination in short and long run, Product variation and selling expenses behavior, Oligopoly ð Characteristics, Price Rigidity, Interdependence, the Cournot Model, Cartels and Collision, Price leadership, Behavioural theory of the firm, Managerial Theory of the firm.

Suggested Readings:
1. Craig Peterson, Lewis and Jain: Managerial Economics, Pearson Education
2. Mark Hirshey: Managerial Economics, Thomson
3. V. Panduranga Rao: Microeconomics-IBS Publication
6. K.K. Dewett: Modern Economic Theory, Sultan Chand and Sons
7. Mote, Paul Gupta: Managerial Economics, Vikas Publisher
8. A. Koutsoyiannis: Modern Microeconomics, McMillan
9. R.L. Varshney and K. L. Maheshwari: Managerial Economics, Sultan Chand and Sons
Objectives: The objective of this course is to develop acquaintance with basic techniques of accountancy. The course attempts to build potential to use appropriate accounting tools and techniques of financial accounting and management accounting for preparing and analyzing financial statements.

SECTION – A

SECTION – B

SECTION – C

SECTION – D

Suggested Readings:
Objectives: The objective of the course is to equip the students with techniques for data analysis. Data need to be analyzed, classified and interpreted to facilitate decision making. The participants are expected to use statistical analysis as a fundamental method of quantitative reasoning for managerial decision making.

SECTION - A
Classification of data and construction of Frequency Distribution: Graphic Presentation of Data.
Index Numbers: Definition and Methods of Construction of Index Numbers, Tests of Consistency, Base shifting, Splicing and Deflation, Problems in Construction, Importance of Index Numbers in Managerial Decision Making.

SECTION - B
Theoretical Distributions: Binomial, Poisson and Normal Distribution.

SECTION - C
Statistical Inference: Concept of Sampling Distribution, Parameter & Statistics, Standard Error.
Theory of Estimation: Point and Interval Estimation, Construction of Confidence Limits for Mean.
Testing of Hypothesis: Large Sample Tests, Small Sample Test (t-test: single sample mean and difference of means tests, F test-Variance Ratio test, Z test-single proportion, difference of proportions, single sample mean and Difference of Means), $\chi^2$ - (chi square) test: Independence of Attributes, Goodness of Fit and Test of Homogeneity.

SECTION - D
Correlation Analysis: Rank Method and Karl Pearson’s Coefficient of Correlation and Properties of Correlation.
Regression Analysis: Simple Linear Regression Model, Specification of the Model, Assumptions, Least Square Estimates of Parameters and their properties, Coefficient of Determination and Interpretation of Coefficients.

Suggested Readings:
3. Levin & Kapoor: Statistics For Management, Prentice Hall India
5. P.N. Arora & S. Arora: Statistics for Management, Sultan Chand and Sons
8. S.P. Gupta: Statistical Methods, Sultan Chand and Sons.
Objective: The objective of studying Organizational Behaviour (OB) is to understand what are the underlying assumptions and causation of behavior of the individuals in the organization and its impact on the achievement of the organizational goals.

SECTION – A
Introduction to OB: Contributing fields to OB, OB in the context of globalization.
Learning and Behavior Management: Biographical characteristic, ability, job fit, learning theories, process of behavior modification.
Values, Attitudes and Job Satisfaction: The Nature and Dimensions of Attitudes, Components of Attitude, Sources and types, Cognitive dissonance theory, Values, Job satisfaction.

SECTION – B
Personality: The meaning of Personality, Personality Determinants, Personality Traits, The big five model, Emotional Intelligence.
Motivation: Meaning of Motivation, Primary, General Motives and Secondary Motives, Motivation and Productivity, Content and process theories of Motivation.
Communication: Role of Communication, Objectives, Barriers to Effective Communication, Communication Processes, Types of communication, Interactive Communication in Organizations.

SECTION – C
Leadership: Understanding Leadership, Leadership Theories - Trait Theories, Behavioral Theories, Contingency Theories, Leadership Styles - Level 5 leadership, Transactional and Transformational Leadership.
Conflict & Collaboration: Sources of Conflict, Types of conflict, Process of Conflict, Individual, Interpersonal, group level conflict, Organizational Conflict, Approaches to Conflict Management.

SECTION – D
Stress Management: Concept of stress, Sources of stress, Effects of stress on humans, Management of Stress.
Management of Change: Importance, Forces responsible for change, Resistance to change, Overcoming resistance to change, Introduction of change in the organization, Organizational Development as a tool for introduction of change.
Organizational Design: Various organizational structures and their effects on human behavior, Organizational Climate, Organizational Culture, Organizational Effectiveness.

Suggested Readings:
3. Hersey Blanchard: Management of Organizational Behaviour, Prentice Hall India
Objectives: The objective of the paper is to create Legal Awareness, to give exposure to various laws and acts which have impact on business and industry, to give inputs relating to procedure of starting a new company. The paper also aims to make the students understand the concept of Ethics and its role in business life for corporate growth.

SECTION – A

SECTION – B

SECTION – C

Business Ethics: Definition, Concepts and Rationale underlying Business Ethics, Ethical Theories in relation to Business, Ethical Dilemmas, Sources and their resolution, Ethical Decision making in business.

SECTION – D

Changing dimensions of Ethics in relation to liberalization and globalization, Creating and Sustaining an Ethical Organization, Corporate Ethics and responsibility towards stakeholders, Environmental Protection, Ethics in Functional Areas of Management.

Suggested Readings:
1. A.C. Fernando: Business Ethics, An Indian Perspective, Pearson Education.
2. S. Rinku and P. Khanna: Ethics and Values in Business Management, Ane Books India
3. B.S. Moshal: Business & Industrial Law, Ane Books
**Objectives:** This course aims at understanding of basics of Information Technology. The participants are expected to develop proficiency in the use of personal computers.

**SECTION – A**

**SECTION – B**

*MS Word:* Introduction to MS Word, Basic Formatting, Legal Numbering, Understanding Styles, Sections, Section Breaks, Headers and Footers, Complex Legal Documents, Tables in the Legal Environment, Track Changes, Compare & Merge Documents, Send for Review and Comments, Troubleshooting Track Changes, Mail Merge Tool.

**SECTION – C**

*MS Excel:* Spreadsheets and their uses in business, Excel basics, Rearranging, Worksheets, Excel formatting techniques, using formulas and functions.

*Data Structures and Descriptive Statistics:* Data Tables, Built-In Functions available from the AutoSum Tool, Additional Statistical Functions, The Analysis ToolPack, Frequency Distributions, Charts, Graphs, and Tables, Pivot Tables and Charts, One-Sample t-Test, One-Way Between-Groups ANOVA, Correlation and Regression, Chi-Square Tests

**SECTION – D**

*Computer Security:* Introduction, Malicious Programs, Cryptography, Digital Signature, Firewall, Users Identification and Authentication, Security Awareness and Policies

**Suggested Readings:**

Objective: To encourage the all round development of the participants by focusing on soft skills and to make them aware about the importance, role and the content of soft skills through instruction, knowledge acquisition and practice.

SECTION – A
Meaning and importance of communication in business: Process, types of communication: formal and informal and their characteristics, essentials of effective business communication, Channels of communication, their effectiveness, limitations, Barriers of communication, approaches to effective Communication.
Presentations, Book Reviews and Summaries

SECTION – B
Listening Skills: Listening to Specific Information, Identifying Main Issues, Seeing Beyond the Surface.
Team Assignment: Effects of Competition on Individual and Group Behaviour, Competitive and Collaborative Team Behaviour, Team/ Group Dynamics, Team Assignment.

SECTION – C
Stress Management: Symptoms of Stress, Coping Approaches.
Principles of clear writing, often misused words, applications and requests, positive and negative responses to requests, routine messages, memos, organizing meetings, preparation of agenda and minutes, business etiquette, telephone etiquette, e-mail etiquette.

SECTION – D
Interpersonal Skills: Negotiations, social skills, assertive skills, cross-cultural communications.
Leadership Skills: Concepts of leadership, leadership styles, insights from great leaders.

Suggested Readings:
2. Poe & Fruchling: Basic Communication, AITBS.
5. Baugh, Frayer & Thomas: How to write first class Business Correspondence, Viva Books.
Objectives: The objective of the subject is to provide an insight to the participants about the changes that are taking place in the economic sector, the effect of these changes on business and the demand placed on managers regarding national and global business environment. Another major aim of this subject is to help identify economic trends and business currents that affect individual firms and the wider industry.

SECTION – A

SECTION – B

SECTION – C
Economic Policies in India: Monetary Policy as an instrument of growth, Fiscal Policy and Indian business, Industrial Policy and Industrial Licensing in India, EXIM Policy, MRTP Act, FERA and FEMA.

SECTION – D
International Economic Environment: Globalization - concept and emergence of globalization, Foreign Direct Investment, Benefits and Problems from MNCs, WTO-its role and functions, implications for India, Devaluation of Rupee

Suggested Readings:
1. Ruddar Datt & K.P.M. Sundaram: Indian Economy, Sultan Chand and Sons.
Objectives: The course has been designed to develop understanding of different concepts and theories underlying financial management and implications of various financial techniques.

SECTION - A
Sources of Finance: Features, Advantages and Limitations of Equity Shares, Preference Shares, Debentures, Term-Loans, Right Issue, Venture Capital, Private Equity GDR, ADR.

SECTION - B

SECTION - C
Cash Management: Meaning, Facets of Cash Management, Motives for Holding Cash, Optimal Cash Balance, Short-Term and Long-Term Cash Forecasting.
Receivable Management: Meaning, Credit Policy Variable, Credit Evaluation, Credit Decisions, Control of Account Receivable.
Inventory Management: Meaning, Need to hold Inventory, Objective of Inventory Management, Inventory Investment Analysis, Inventory Control System.

SECTION - D
Corporate Restructuring: Meaning and forms of corporate restructuring, merger and amalgamation, takeover and acquisition, types or forms of mergers and takeovers, their benefits and motives.

Suggested Readings:
Objectives: The main aim of the paper is to understand the nature, tasks and the environment under which marketing operates, to study the theory, principles and practical aspects of various marketing functions, and to learn to take marketing decisions.

SECTION – A
Introduction to Marketing: Definition, Scope and Importance of Marketing, Key Customer Markets, Concepts/Philosophies of Marketing, Holistic Marketing Concept, Marketing Tasks, Marketing Mix

SECTION – B

SECTION – C
Pricing Strategies: Understanding Pricing, Setting the Price, Initiating and Responding to Price Changes, Reactions to Competitor’s Price Changes.

SECTION – D
Marketing Channels: Marketing Channels, Role of Marketing Channels, Identifying Major Channel Alternatives, Types of Intermediaries, Channel-Management Decisions, Retailing, Wholesaling.
Marketing Communication: The Role of Marketing Communications, Communications Mix—Advertising, Sales Promotion, Public Relations and Publicity, Events and Experiences, Direct and Interactive Marketing, Personal Selling.

Suggested Readings:
5. P. Kotler and Armstrong: Principles of Marketing, Prentice Hall India
Objectives: The objective of the paper is to make participants aware of the various functions and importance of the Human Resource department in an organization. It is concerned with managing the human resources, whereby the underlying objective is to attract, retain and motivate the human resources in an organization, which is a challenging and daunting task.

SECTION – A
Introduction to HRM: Meaning, Function, Scope of HRM, Importance of HRM, HRM and HRD a comparative analysis, Line vs. staff authority, Challenges of Human Resource Management.
Human Resource Planning (HRP): Definition, Need and Importance of HRP, Process of HRP, Levels of HRP, Forecasting Demand for employees, Forecasting supply for employees.

SECTION – B
Recruitment: Definition and concept of Recruitment, Factors Affecting Recruitment, Sources of recruitment, Internal and External.
Managing Careers: Concept, Career stages, Career Anchors, Career Development Cycle, Benefits of career planning to individual as well as organization, Internal mobility- promotions, demotions, transfers, Separation and Succession planning.
Employee Training and Management Development: Importance and objectives, Distinction between Training and Development, Methods of training and development, Training need analysis, Evaluation of Training.

SECTION – C

SECTION – D
Industrial Relations: Concept and purpose of Industrial Relations, Collective Bargaining, Types, Process, Pre-requisites, Issues Involved: Industrial Disputes, Worker Participation in Management, Trade Unions.
Grievance Handling: Grievance - Causes/Sources of Grievances, Grievance Redressal Machinery, Legislative Aspects of the Grievance Redressal Procedure in India, Domestic enquiry, Discipline and disciplinary actions, Dismissal and Discharge of an employee.
Quality of Work Life: The Concept of Quality of Work Life (QWL), Strategies for Improving QWL, Family integration processes.

Suggested Readings:
1. V.S.P. Rao: Resources Management, Excel Publishing
**Objectives:** This course offers an understanding of basics of Information Systems. It has been designed to acquaint the participants about the evolution of computer-based information systems, basic computer software, types of information systems that are needed to support the various levels of a business enterprise and how IT is helpful in Business.

**SECTION – A**

**Introduction:** Definition & Significance, Foundation of IS in Business, MIS Support for Programmed and Non-Programmed Decision Making, and Model of Decision Making.

**Structure of MIS:** Based on Management Activity & Organisational Function, Conceptual & Physical Structure of MIS, Systems Concept: Definition of a System, Types of Systems.

**SECTION – B**

**Microsoft Access:** Creating and opening database, Importing data, Tables, keys, Field names, Data types, Relationships, Normalization, Basic Queries Using QBE, ampersand (&) operator, Forms and Subforms, adding bound text boxes, Linking the main form and subform.

Combo Box Controls, aggregate function, hiding the text box, Parameter Queries: Dynamic queries, parameter queries, using parameters to generate prompts, Values on forms as parameters, Action Queries.

**SECTION – C**

**Decision Support Systems:** Introduction to DSS, DSS components, Using DSS in What-if-Analysis, Sensitivity Analysis, Goal-Seeking Analysis, Optimization Analysis.

**SECTION – D**

**Introduction to SPSS:** SPSS Basics, Creating and Manipulating Data in SPSS, Printing a Data Set, Generating Descriptive Statistics in SPSS, Generating Graphical Statistics in SPSS, Statistical Models in SPSS, Parametric and Non Parametric Tests, Linear Regression, Correlation, Analysis of Variance.

**Suggested Readings:**

3. SPSS Inc.: SPSS Base 16.0 Users Guide.
Objectives: The main objective of this course is to help understand the nature, scope, complexities and process of defining a business, research question. The learning focus is on developing business research skills so as to facilitate managerial decision making.

SECTION – A
Introduction: Meaning, Features, Objectives/Motives & types of Research, Defining the Research problem, Research Process, Significance of Research in Managerial decision making.

SECTION – B
Data Collection: Sources of Data-Primary/Secondary Methods of collecting data, direct personal interview, indirect oral interview, information through local agencies, mailed questionnaire method, schedule sent through enumerators, questionnaire and its designing and characteristics of a good questionnaire.
Sampling Design: Meaning and need of Sampling and review of Sampling Methods.
Measurement and Scaling Techniques.
Formulation of Hypothesis.

SECTION – C
Data Analysis & Interpretation: Introduction to Multivariate analysis- Multiple and partial correlation, multiple regression analysis (with two independent variables), specification of regression models and estimation of parameters, interpretation of results. Analysis of Variance (ANOVA)-One way and Two way ANOVA.

SECTION – D
Report writing: Style/format, contents and essential steps for report writing.
Role of Computers in Research.

Suggested Readings:
1. K.N. Krishnaswamy, Appa Lyer Siva Kumar, M. Mathirajan: Management Research Methodology, Pearson Education.
2. Ranjit Kumar: Research Methodology, Pearson Education.
3. Donald R. Cooper and Pamela S. Schindler: Business Research Methods,Tata McGraw Hill
5. R. Pannerselvam: Research Methodology, Prentice Hall India.
Objective: The aim of the course is to impart skills and competencies in evaluation of screening process, statistical/epidemiology methods and epidemiologic studies.

SECTION – A
General Epidemiology and Epidemiological methods: Definitions, concept and evolution of epidemiological concept, Aims of epidemiology, measurement of morbidity and mortality, methods of epidemiology, uses of epidemiology data, association and causation screening, immunity, investigation of an epidemic.

SECTION – B
Environmental Sanitation and Health aspects: Definition of environment; Water: water borne diseases, water pollution methods of purification, water quality, Air-pollution indicator and precaution, radiation: hazards and prevention, lighting, noise, housing standards. Disposal of wastes and Hospital waste management.
Nutrition and Health: Classification and sources of various nutrients, requirements, assessment, nutritional diseases; Genetics and Health: Basic principles, genetic predisposition, prevention and social measure, Disaster Management.

SECTION – C
Biostatistics: Definition, scope and uses of biostatistics and medical research collection, classification and presentation of statistical data, sources and user of statistics, sampling, numerical summaries (proportions, means, SD, Median and percentile), Graphical summaries.

SECTION – D
Health statistics and health information system in India: Methods of registration õ fallacies/ difficulties, samples registration schemes, common rates and ratios, normal curve and Poisson distribution, Hypothesis testing, test of significance, normal test, õt test and chi-square test.

Suggested Readings:
1. K.Park : ParkÕs Textbook of Preventive and Social Medicine, Bhanot Publishers
5. E. G Knox.: Epidemiology in Health Care Planning, Oxford University Press.
Objective: After completion of community health and management of National health programs module, students will be able to recognize and identify the elements in designing the strategies for health care delivery for community.

SECTION – A

Concepts in Health and Disease: Evolution of medicine, public health and community health; Definition of health: the determinants and relative concept; Agent → Host → Environmental factors in health and disease, indices used in measurement of health, levels of prevention; Epidemiology of common communicable diseases and chronic non-communicable diseases and condition.

SECTION – B

Health care delivery system in India: Introduction, Demography and Family Planning; Maternal and child health; Urban health; Occupational health; Mental health; Community geriatrics; Essential Medicines and Counterfeit Medicines.

SECTION – C

Health Education: Definition, approach in health education, methods, barrier to effective communication, principles of health education; International Health Regulations and International classification of diseases, International Health agencies and organizations: WHO, UNICEF, UNOP, World Bank, UNFPA, CARE, IHO, Notifiable diseases.

SECTION – D

National Health Programs: Objectives, strategy, achievements, critical analysis; Cancer screening and national cancer control program, National AIDS Control program and NACO, National leprosy eradication program, Universal immunization program, National vector borne disease control program, RNTCP, RCH, National Program for control of blindness, National Health Policies, National Population Policy, National Rural Health Mission.

Suggested Readings:
1. K. Park: Park’s Textbook of Preventive and social Medicine, M/s Banarsidas Bhanot Publishers
Objectives: Projects are non-recurring activities requiring a different set of skill for planning as compared to regular and operative activities. The course is aimed at developing the understanding of project activities and relevant skills.

SECTION – A

SECTION – B
Market Analysis: Market and Demand Analysis, Market Survey, Demand Forecasting, Uncertainties in Demand Forecasting.
Methods of Demand forecasting: Time series projection methods & causal methods.

SECTION – C
Risk Analysis: Measures of Risk, Sensitivity Analysis, Scenario analysis, Break-even method, Simulation Analysis, Decision Tree Analysis, Application of project appraisal techniques in current environment.

SECTION – D
Project Scheduling/Network Techniques in Project Management: Concept of EOT, LOT, CPM and PERT Analysis, Float times, Crashing of Activities, Contraction of Network for Cost Optimization.

Suggested Readings:
Objectives: The course aims at enabling the participants to understand all details of planning before the physical structure of a hospital comes up. They are expected to understand and develop the organization structure that needs to be in place before operational readiness of a hospital.

SECTION – A
Introduction to Hospital Planning: Definition of a hospital (including difference of hospital from other business organizations, classification of hospitals, Overview of various types of specialty – clinical and supportive services required in a hospital depending on its size).
Planning a new hospital - Principles guiding planning, Steps of planning (including feasibility report, detailed project report and market survey), Financial planning/ equipment planning, Operational/ functional/ master plans, Permanent hospital organization.

SECTION – B
Designing: The Design team- constituents, how to choose it and functions of all members, Design development (drawings- small scale, working), (documents-specifications/ tender), (site plan/ bed distribution), Principles/ general features of planning, Preparing for operational readiness, Commissioning, Inauguration, Various processes of architecture.

SECTION – C
Organization: Definition, Four aspects of an organizational design, Purpose of an organization, Constituent elements of an organizational structure, Various designs of organization structure or Organizational charts, Dual line of authority, The Organization triad, Delegation of authority or span of management, Roles and responsibilities of a hospital CEO.

SECTION – D
Disaster Management: Basics of Disaster Management and Mass Casualties, Phases of a Disaster, the concept of Triage in a Disaster, Disaster Preparedness- pre-hospital and hospital plan, Disaster alertness in hospital.
Disaster Management Planning, organization and implementation.

Suggested Readings:
3. Thomas L. Scraty, Kevin P. Kerrus and Luis G. Vargas: Analytical Planning-The Organization of Systems
Objectives: This course is aimed at developing awareness among participants regarding concept of location, layout and the infrastructure and staff requirements. They are expected to develop general procedures and policies for management of super specialty services.

SECTION – A
Hospital Management of Clinical Services (Medical + Ancillary): Detailed Management, Layout, Design of - OPD Services, Emergency Services, Clinical Laboratories, Radiological Services, Operation Theatres.

SECTION – B

SECTION – C
Nursing Services: Detailed Layout, Design & Management of: General Nursing Unit including general wards and private rooms, Intensive Care Units; Decision making in nursing profession: Nurse-Patient relationship, health education to patients; Pediatric Nursing Unit, Obstetric Nursing Unit, Psychiatric Nursing Unit, Isolation Rooms, ICU/CCU, New born Nursery.

SECTION – D
Emerging areas in Hospital Services: Alternative and Complimentary medicine, Palliative medicine, promotive Healthcare, home health care; Rehabilitation and De-addiction – Role of hospitals, duties and responsibilities of clinical and paraclinical staff.

Suggested Readings:
4. Shakti Kumar Gupta, Sunil Kant, R Chandreshakhar: Modern Trends in Planning and Designing of Hospitals-Principles & Practice, Jay Pee Publications.
5. A.V. Ramasastri Srinivasan: Managing a Modern Hospital, Response Books.
6. Shakti Gupta, Sunil Kant: Hospital and Healthcare Administration, Jaypee Publications.
Objectives: The participants are expected to appreciate need and functions of support departments as well as the physical facilities required.

SECTION – A

Administrative Services: Executive Suite, Professional Service Unit, Financial Management Unit, Nursing Service Administration Unit, Human Resource Management, Public Relation Department, Marketing Department.

SECTION – B

Other Supportive Services: Admitting department, Medical Records Department (MRD), Central Sterilization & Supply Department (CSSD), Pharmacy, Materials Management, Food Services Department, Laundry & Liner Services, Housekeeping, Volunteer Department; IT and Health Telemedicine services.

SECTION – C

Public Areas/Staff Facilities: Entrance/lobby, Waiting area, Gift shop/Book Shop/Florist, Coffee Shop cum-Snacks Bar, Meditation/Quiet room, Staff facilities; Management of Hospital Parking and Traffic Control.

SECTION – D

Utility Services: Engineering Department, Maintenance Department, Clinical (Biomedical Engineering), Electrical System, Air Conditioning System, Water supply and sanitary system, Centralized Medical gas system, Communication system.

Environment Control, Solid Waste Management, Transportation and Ambulance services.

Suggested Readings:

1. B.M. Sakhankar: Principles of Hospital Administration & Planning, Jay Pee Publications
2. G.D. Kunders: Hospitals-Facilities Planning and Management, Tata McGraw Hill
5. Dr. S.L. Goel and Dr. R. Kumar: Hospital Administration& Management Theory & Practice, Deep & Deep Publications.
6. A.V. Ramasastri Srinivasan: Managing a Modern Hospital, Response Books.
Objectives: The course is intended to help participants get acquainted with various research concepts, techniques and procedures and to develop their ability to conduct, evaluate, use and present research findings with special reference to Health services. The course will also help students to understand the various factors affecting consumer behavior and to understand the process of consumer buying for Health services.

SECTION – A

Introduction to Consumer Behavior: Introduction, Applications of consumer behavior, Consumer behavior and marketing strategy, Situational characteristics and consumption behavior, Consumer decision making process, Post purchase behavior.

SECTION – B

Factors Influencing Consumer Behavior: Consumer specific factors influencing buying behavior, psychological processes (motivation, perception, learning and memory) affecting consumer behavior, the buying motive, high involvement and low involvement buying situations, Consumer behavior in adapting new products, participants in buying decisions. Group influence- Definition, types of group (primary, secondary, formal etc.), Family influence, roles, FLC application.

SECTION – C

Introduction to Marketing Research: Meaning, scope and importance of marketing research, Defining the market research problem and developing an approach, Research design formulation, Rating Scales Juster, Likert, Semantic Differential, Thurston, Attitude Scales. Preparing a written research report, organization of the report, Ethical issues in marketing research.

SECTION – D

Consumer behavior for Hospital services. Case studies on Consumer behavior for Hospital services. Applications of marketing research in Hospital industry: Research design classification, Product research-developing products, Specifications and attributes, Concept of test marketing. Advertising research, Market and sale analysis research, Sales forecasting, Demand measurement.

Suggested Readings:-
7. A. Parasuraman et.al.: Marketing Research, Biztantra.
Objectives: The course is designed with an aim to develop an understanding of the decision processes in advertising from a marketer’s point of view and to understand the concept, methods and strategies of sales management as are applicable for Health services.

SECTION – A

Introduction to Advertising: Advertising- an element in Marketing Mix, Role and Importance, Difference between advertisement and publicity, Advertising as a means of communication, Setting Advertising Objectives, DAGMAR approach to setting objectives, Media, selection, measurement of effectiveness of Media, Preparing advertising plan, Developing message, writing copy. Advertising appeals: pre and post-testing. Media decisions, media strategy and scheduling decisions, Planning and managing advertising campaigns.

SECTION – B

Integrated Marketing Communications: Different types of advertising, public relations, advertising budget and relevant decisions, Advertising agencies, their role and importance, management problems of agencies, client-agency relations. Advertising in India: Problems and Prospects.
Role of Integrated Marketing Communications (IMC), Designing, Objectives Setting and Budgeting for IMC programs, Developing effective communications.
Managing Mass Communications: Events, Experiences and public relations, Measuring media.

SECTION – C

Sales Management: Sales organization, Sales Functions and its relationship with other marketing functions, External relationship of the Sales Department e.g. with distributors, Government and Public.
Functions and qualities of a Sales Executive, Routing and Scheduling, International Sales Management.
Salesmanship: Theoretical aspects of Salesmanship, the process of selling, Sales forecasting methods, Sales budget.
Sales force management, Recruitment, Selection, Training, Motivation and Compensation of the field sales force.
Evaluation and control of sales force, Sales Territories, Sales Quotas.

SECTION – D

Advertising of Hospital services.
Integrated Marketing Communication for Hospital services: Its distinguishing features.
Managing Mass Communications: Events, Experiences and public relations.
Sales Management practices for Hospital services
Case Studies.

Suggested Readings:
2. Raghuvir Singh: Advertising-Planning and Implementation, Prentice Hall India.
Objective: The objective of this course is to develop a conceptual framework of international marketing management so as to provide necessary knowledge and tools to develop marketing strategies for a variety of Health services.

SECTION – A
Framework of International Marketing: Scope of International Marketing - International Marketing vs Domestic Marketing - Trade Barriers such as Tariff and Non-Tariff Barriers. Transition from Domestic to International Business. Pre-export behaviour - Motivation to export. Special difficulties in International Marketing. Advantages or importance of International Marketing. Balance of Trade and Balance of Payments.

International Marketing Environment: Factors/Dimensions influencing International Marketing - Controllable and Uncontrollable factors in International Marketing. Globalisation and Role of Multinational Enterprises (MNEs).

SECTION – B

SECTION – C

International Trade Liberalization: General Agreement on Tariff and Trade (GATT) - World Trade Organization (WTO) - GATS ñ UNCTAD.

Trade Blocks: North American Free Trade Agreement (NAFTA) - Association of South East Asian Nations (ASEAN).

SECTION – D
India's Foreign Trade: Recent Tends in India's Foreign Trade - India's Commercial Relations and Trade Agreements with other countries.

Institutional Infrastructure for Export Promotion in India - Export Assistance - Export Finance - Export Processing Zones (EPZs) - Special Economic Zones (SEZs) -Role of ECGC, EXIM Bank of India, Commodity Boards, STC, MMTC, etc.. Role and Functions of Export Promotion Councils

Export Payment - Different Modes of Payment and Letters of Credit

Suggested Readings:
Objective: This course aims to provide an in-depth perspective into Internet Marketing, and help participants to appreciate internet as an integral part of an organisation's marketing mix. The primary objective of the course is to focus on how the Internet can serve as an invaluable resource for marketing of Health services.

SECTION – A

SECTION – B

SECTION – C

SECTION – D

Case studies on marketing of Health services on internet.

Suggested Readings:
1. Judy Strauss & Raymond Frost: E-Marketing, PHI Learning
4. P.T Joseph: E-Commerce- A Managerial Perspective- Prentice Hall India
9. Keen, Peter and Mark Mc-Donald: The e Process Edge, Tata Mc-Graw Hill, Delhi
Objectives: The course has been designed to develop understanding of different concepts relating to analysis of investment and portfolio management and to provide exposure to derivatives market, its working and inputs on strategies used in derivatives market.

SECTION-A

Risk and Return: Concept of Risk, Components of Investment Risk, Measurement of Risk through Standard Deviation, Regression Equation, Covariance, Concept of Return, Expected Yield, Actual Yield, Holding Period Yield, Relationship between Risk and Return.

SECTION-B

Efficient Market Theory: Random walk, Weak form, semi-strong and strong form of market, Empirical tests, Comparison between random walk.

SECTION-C

Portfolio Analysis: Concept of Traditional and Modern Portfolio Analysis, Markowitz Theory Risk í Return Optimisation, Single Index Model, Beta Generation in Efficient Frontier, Three securities Model, Interactive Risk through Covariance, Correlation Co-efficient, Sharpeâ€™s Model.

SECTION-D

Portfolio Selection: Concept of Portfolio Selection, Optimal Portfolio, Objectives, Risk and Investor Preferences, Investment Constraints, Cut-off Rate and New Securities, Efficient Frontier and Portfolio Selection, Beta, Traditional Portfolio Building.

Case studies on Investment Analysis of Health Care Industry.

Suggested Readings:-
2. Frank J Fabozzi: Investment Management, Prentice Hall - Gale
8. V. K. Bhalla: Investment Management, Sultan Chand and Sons.
Objective: To enable the students to understand cost management system and develop an insight into application of cost analysis from strategic perspective in Health Care industry.

SECTION – A

Activity Based Costing and Management: Treatment of Cost, Steps, Advantages, Disadvantages.

SECTION – B

Value Analysis: Meaning of Value Analysis and value addition, Strategic Application of Value Chain Analysis.

Strategic Positioning Analysis: Critical Success Factors and SWOT Analysis.

SECTION – C

Relevant Indian and International accounting standards, Current Scenario in India, Numerical Problems.

SECTION – D

Responsibility Accounting: Activity based Responsibility Accounting, Behavioural aspects of responsibility accounting, Transfer Pricing.

Productivity improvement in Health Care Sector: Various tools and techniques including Kaizen and Six Sigma.

Case studies on cost management in Health Care industry.

Suggested Readings:
Objective: This course aims at developing understanding and analytical skills among participants regarding applications of Financial Engineering, with special reference to the Health Care industry.

SECTION – A

SECTION – B
Credit analysis:
Risks: sovereign and country risks, industry risks, management factor, financial risk analysis.
Credit ratings: credit spreads, interest coverage ratio and its effect on industries classification, process of credit ratings.

SECTION – C
Options:
Principles of options, factors affecting option value, option pricing models: single stage and two stage binomial models, Black Scholes.
Strategies: bullish options strategies, bearish options strategies and neutral strategies, Collar spread.
Interest rate options: calls and puts, caps, floors and collar.
Swaps:
Interest rate swap: definition, structure of swaps, valuation of swap at outset.
Currency swap: definition, valuation of currency swap.

SECTION – D
Forwards and Futures: introduction, features, hedging with forward contracts, futures pricing models, difference between forwards and futures contracts.
Hedging with futures: hedging concepts including long hedge & short hedge, the basis, risks in hedging. Minimum variance hedge ratio, price sensitivity hedge ratio and stock index futures hedging, Hedging strategies.
Credit Derivatives: Credit default swap and Total return swap.
Application of financial engineering tools to the Health Care industry.
Case studies on financial engineering practices in Health Care industry.

Suggested Readings:
4. Don Chance: An introduction to Derivatives and Risk Management Cengage Press, Delhi
Objectives: Liberalized economy has generated many opportunities of combining businesses to create wealth. The fundamental aim of the course is to equip participants for taking advantage of the current scenario. Emphasis of the course will be on understanding how mergers, acquisition and corporate restructuring is taking place in Health Care industry.

SECTION – A

SECTION – B
Valuation: Meaning, Factors to be considered for Valuation, Types of values: Going concern Value, Liquidation Value and Market Value, Methods of Valuation: Asset based Valuation method, Earning based valuation, Market based valuation, Book value approach, Stock and Debt approach, Direct Comparison Approach and Discounted Cash flow method of valuation.

Cross Border Acquisition: Meaning, Need, Benefits of Cross Border Acquisition and Difficulties in Cross Border Acquisition

Post Merger Issues: Tools for Integration, Strategies for Post Merger Success, Post merger growth strategies, Human aspects in mergers and acquisition, Failures in Post-merger Integration and Successful Post-merger Integration.

SECTION – C
Corporate Restructuring: Meaning, Conceptual framework, McKinsey 7S Model, Reasons for restructuring, Barriers to corporate restructuring, Key Elements, Types of corporate restructuring: Financial, Portfolio and Organisational Restructuring, Hardware and Software Restructuring, Strategic Options in restructuring, Implications of corporate restructuring for investors, customers, management, employees and others.

Restructuring through Joint Ventures: Meaning, Characteristics, Objective, Rationales, Reasons for failure of Joint Venture

SECTION – D
Due Diligence: Concept, Need, Transaction requiring Due-diligence, Process, Types: Financial, Legal, Operational, Intellectual, IT and Human resource Due Diligence, Due diligence and M&A failure.

Strategic Alliance: Types, Reasons, Implications of Strategic Alliance, Strategic Management of Alliances. Divestitures: Meaning, Types, Reasons for Divestiture, Benefits of Divestiture

Mergers, acquisitions and corporate restructuring in Health Care industry. Case studies on business restructuring in Health Care industry.

Suggested Readings:
1. Aurora, Shetty and Kale, Mergers and Acquisition, Oxford University Press.
2. Weston, Chung and Hoag, Mergers, Restructuring and Corporate Control, PHI Learning
3. Krishnamurti and Vishwanath, Mergers, Acquisition and Corporate Restructuring, Sage
4. Vadapalli, Mergers, acquisition and Business Valuation, Excel Publication.
5. DePamphilis: Mergers, acquisitions and other restructuring activities, Elsevier Limited
Objective: The objective of this course is to give students a complete exposure to all aspects of International HRM. The course emphasizes importance of Human Capital in the organizations of today. It also provides a comprehensive overview of International Human Resource Management (IHRM) practices being used by practitioners in multinational enterprises.

SECTION – A

International HRM: Concept, Defining International HRM, Differences between domestic and international HRM, Variables moderating the difference between domestic and International HRM, Developments leading to global HRM, Issues in global organizations, Management of external environment, Relevance and importance of IHRM.

Sustaining International Business Operations: Approaches to staffing- ethnocentric, polycentric, geocentric, regiocentric, reasons and types of international assignments, role of expatriates, role of non expatriates.

Recruiting and selecting staff for international assignments: issues in staff selection, reasons for expatriate failure, factors moderating performance, selection criteria.

SECTION – B

Training and development: Role of expatriate training, effective pre-departure training programmes, effectiveness of pre departure training, developing staff through international assignments.

Compensation: Objectives of International compensation, Key components of international compensation programme, Approaches to international compensation.

Re-entry and Career Issues: Repatriation Process, Individual reactions to re-entry, Multinational responses, Designing repatriation programme.

SECTION – C

HRM in host country context: standardisation and adaptation of work practices, retaining, developing and retrenching staff.

Culture and IHRM: Concept of Culture, Cross Cultural Studies, Hofstede's Model of National Culture.

Industrial Relations: Key issues in international Industrial relations, trade unions and international industrial relations, response of trade unions to multinationals.

Performance Management: Multinational performance management, performance management of international employees, Performance appraisal of international employees, Appraisal of HCNs.

SECTION – D

IHRM Trends and future challenges in Health Care industry: International business ethics and HRM, research issues and theoretical developments in international HRM.

GHRM in Select Countries: America, Japan, China, Korea, Africa, Europe, India.

Cases on IHRM practices in Health Care organizations.

Suggested Readings:-
Objective: The aim of this course is to provide valuable insight in managing change in such a way that knowledge and skills are transferred to build the organization’s capability to achieve goals and solve problems. It provides a critical assessment of the symptoms, mechanisms and dynamics of Organizational Development (OD) and evaluate the range of OD Interventions as are applicable in Health Care industry.

SECTION – A

Introduction to OD: Definitions of Organizational Development (OD), Growth and Relevance of OD.

History of OD: The Laboratory Training, Survey Research and Feedback, Action Research, Socio-technical and Socio-clinical Parallels, Second Generation OD.

Underlying Assumptions and Values: Assumptions about people as individuals, Assumptions about people in groups and about leadership, Assumptions about people in organizational systems, Assumptions that relate to values in the client organization, Values and belief system of behavioral scientist change agents.

SECTION – B

OD Interventions - An Overview: A definition of OD interventions, nature of OD interventions, the major families of OD interventions, classification schemata for OD interventions.

Team Interventions: Teams and Work Groups - Strategic Units of Organizations, Team Building Interventions, the Family Group Diagnostic Meeting, The Family Group Team-Building Meeting, Role Analysis Technique Intervention, Role Negotiation Technique, Responsibility Charting, the Force Field Analysis Technique, Gestalt Orientation to Team Building.

SECTION – C

SECTION – D

Organization Development in Health Care organizations: Job Design, Quality Circles, MBO and Appraisal, Work Restructuring, Quality of Work Life in Health Care organizations.

The Role and Style of the OD Practitioner with special reference to Health Care industry: External and Internal Practitioner, Competencies of an OD Practitioner, OD Practitioner Styles, the OD Practitioner and his role in Intervention Process, Forming the practitioner-client relationship, Professional Values and Ethics for OD professionals, Ethical Guidelines and Dilemmas.

Special issues in undertaking OD interventions in Health Care industry.

Suggested Readings:
5. D.R. Brown and D. Harvey: An Experiential Approach to OD, Pearson Education.
Objective: The objective of this course is to enhance the understanding of Indian corporate environment relating to legislative framework. Emphasis would be given to provisions and case laws of various acts, as are applicable to the Health Care organizations.

SECTION -A
The Industrial Disputes Act, 1947: Industry, Workman, Industrial Dispute - methods and authorities for the settlement of industrial disputes, Strikes and Lockouts; Layoff and Retrenchment.
Employees Provident Fund & Miscellaneous Provisions Act, 1952 - schemes and authorities,

SECTION -B
The Trade Unions Act, 1926: Trade Union, Registration, of Trade Unions, Rights and Liabilities of registered trade unions.
Payment of Wages Act, 1936 - deductions and authorities,
Minimum wages act, 1948 - fair wages, living wages, minimum wages, fixation of minimum rate of wages,

SECTION -C
The Workmen's Compensation Act, 1923: Workman, Employer's liability to pay compensation, Disablement, Amount of compensation.

SECTION -D
Standing Orders Act, 1948: Standing orders, Certification of draft standing orders, Duration and Modification of certified orders.
Case studies on applicability of labour laws in Hospitals.

Suggested Readings:
6. S.N. Dhayani: Industrial Relations System, Sultan Chand and Sons
**Objectives:** This course integrates concepts and current day practices to provide insight into Performance Management systems and models so as to understand and appreciate the intricacies of Reward Management in Health Care organizations.

**SECTION – A**

**Performance Management:** Definition, Disadvantages of poorly implemented Performance Management (PM) Systems, aims and role of PM Systems, Characteristics of ideal PM Systems.

**Performance Management Theatre:** Concept, pillars of Performance management theatre, Planning managee Performance and development, Monitoring managee performance and development, Annual stocktaking.

**SECTION – B**

**Planning Managee Performance and Development:** Setting objectives, Organisational and individual performance plans, Components of Managee performance and development plan, Setting Mutual Expectations and Performance Criteria

**Monitoring and Mentoring Managee Performance and Development:** Introduction, Supervision, Objectives and Principles of Monitoring, Monitoring process, Periodic Reviews, Problem solving, process and Principles of managee development, Role efficacy.

**SECTION – C**

**Annual Stocktaking:** Stock taking performance, stock taking discussions, Stocktaking potential, Tools for stocktaking potential (assessment centres, 360 degree feedback, managee career development window).

**Appraising for Recognition and Rewards:** Pros and cons of appraising, appraiser and appraisee concerns, common rating errors, Purposes for appraising, Methods of appraisal, Implementing the appraisal system.

**SECTION – D**

**Reward Management in Hospitals:** Foundations of reward management, Financial and Non-financial rewards, Factors affecting level of pay, Developing reward processes.

**Pay Structures:** Fixed vs variable pay, graded pay structures, Broadbanding, Developing pay structures.

**Pay systems:** Team based pay, Performance related pay, Short term incentives, Long term incentives, Executive compensation, International compensation, Benefits.

**Specific issues in performance management in Hospitals.**

**Suggested Readings:**

Objectives: This Module offers better and more practical understanding of Supply Chain Management, with a focus on developing SCM for Hospitals.

SECTION – A

Introduction to Supply Chain Management: Definition, Scope & Importance of Supply Chain Management, Key drivers of the SCM, Features of Supply Chain Management, Supply Chain Network (1st Tier, 2nd Tier), Network decisions in SCM, Suppliers and Customers, Customer Service Dimension (Seven R’s Principles, Service after sale, Customer delight), Role of IT in SCM.

SECTION – B

Role of Logistics in Supply Chains: Definition of Logistics Management, Scope and role of Transportation, Traffic & transportation, Relationship between transportation and other business functions, Transport Economics: Distance-volume-density, Freight Cost, Handling, Liability, Market factors, Third party logistics (3 PL) & fourth party logistics service provider (4 PL), Logistics equipment, Reverse Logistics, Government rule & regulations related to Logistics, Purchase Cycle, Make or Buy, Price analysis, Negotiations.

SECTION – C

Inventory Management: Inventory Control, Planning & Managing Inventories, Warehouse Management (Receipt, issue, storage and preservation, stock verification, In bound and out bound distribution operations), Order Management, Competitive advantage through logistics and supply chain management, Supply chain process integration, performance measurement, Value Chain.

Planning demand and supply: Planning & Sourcing in Supply Chain, Demand forecasting, Type and Time horizon of forecast and category of forecasting, aggregate planning.

SECTION – D

Case studies on SCM in Hospitals.

Suggested Readings:
4. RP Mohanty: Supply Chain Management-Theories and Practice, Biztantra.
5. Robert B. Handfield, Ernest L. Nicholas, Jr.: Introduction to Supply Chain Management, Pearson Education.
Objectives: The paper aims to make the students understand a systems view of operations and to understand the conversion of inputs into outputs with various technologies.

SECTION – A
Operations Management: Concepts and Functions.

SECTION – B
Facility Location: Importance, Factors in Location Analysis, Location Analysis Techniques.
Facility Layout: Objectives, Advantages, Basic Types of Layouts.
Production Planning & Control (PPC): Concepts, Objectives, Functions.

SECTION – C
Materials Management: Concepts and Objectives.
Introduction to modern Productivity techniques: Just in time, Kanban System, Total quality management & Six Sigma.
Purchasing Management in Hospitals: Objectives, Functions, Methods, Procedure.

SECTION – D
Stores Management in Hospitals: Types of Stores, Functions, Coding Methods
Value Analysis: Concepts.
Inventory Management in Hospitals: Concepts, Classification, Objectives, Factors Affecting Inventory Control Policy, Inventory Costs, Basic EOQ Model, Re-order Level, ABC Analysis.
Maintenance Management in Hospitals: Concepts, Objectives, Functions, Types of Maintenance.

Suggested Readings:
1. N.G. Nair: Production & Operation Management, Tata McGraw Hill
2. Everett E. Adam & Ronald J. Ebert: Production & Operation Management, Prentice Hall India
6. Gaither: Operations Management, Thomas Learning
8. M.M. Verma: Materials Management, Sultan Chand and Sons
Objective: The objective of this course is to develop abilities to evaluate existing management practices so as to design and reengineer processes, with a focus on Health Care organizations.

SECTION – A
Definition of reengineering, time for reengineering, why business process start to fail, explanation of change theory, reengineering mission and scope, reengineering cost, survival and growth strategies, rethinking business processes.

SECTION – B
The new world of work, the enabling role of information technology, perspectives on the customer, understanding markets, customer research within markets, service and specifications from the customer, insights from customer analysis.

SECTION – C
Understanding the influences in the background, perspectives on the background, dynamic nature of the industry, competitive intelligence: Bringing the background into focus, mapping the way work gets done, identifying areas for improvement.
Planning for change, refined mission and scope, design options and alternatives, mapping the new process, developing business policies, information channels and communications, feedback for continuous improvement, implementing system and structural changes.

SECTION – D
Specific issues in application of BPR principles in Health Care sector: downsizing dilemma, maximizing the chances for reengineering success, resistance to change, the transition process, revitalizing the organization for long term durable change.
Case studies on BPR in Health Care sector.

Suggested Readings:
Objectives: This course is designed to help participants understand the importance of managing Technology and innovation, leading to better appreciation of them being a source of competitive advantage in Health Care sector.

SECTION – A
Technology Management: Understanding Technology and its Relationship with Wealth of Nations and Firms Specific Knowledge; Technology Life Cycles, Technology Acquisition and Absorption; Technology Exports / Joint venture Abroad. Technological Intelligence and Forecasting, Global Trends in Technology Management.

SECTION – B
Change Management: Understanding the Nature, Importance, Forces, Types of Change; Diagnosing Organizational Capability to Change-strategy, Structure, Systems and People; Building Culture and Climate for Change: Role of Leadership; Managing Transformations.

SECTION – C
Innovations Management: Invention vs. Innovation; Innovation Strategies and Models; Concurrent Engineering.
Creative and Lateral Thinking Management: Thinking, Creative Thinking, Problem Solving, Managing Lateral Thinking.

SECTION – D
Technology management in Hospitals: Leveraging technology for growth in Health Care industry.
Process innovations in Health Care industry.
Case studies in technology management in Health Care industry.

Suggested Readings:
Objective: The objective of this course is to create in-depth understanding of various corporate strategies, their formulation, implementation and process of change in strategies. Further the course will enable participants to appraise various strategies issues.

SECTION – A
Introduction: Conceptual framework of strategic management, Strategic formation process, Approaches to strategies decision making, Pitfalls, Techniques for improvement, Mission.
Objectives and Goals: Significance, Characteristics and formation of Missions, Objectives and Goals, Porter’s five force model and strategies groups, Competitive advantage, Distinctive Competencies.
Organizational Analysis through Internal Scanning: Value chain analysis, Organization structure and culture, Various strategies issues.

SECTION – B

SECTION – C
Building and Restructuring Business: Start up route, Acquisition, Joint venture, Merger, Takeover, Restructuring, Retrenchment, Divestment, Harvest, Liquidation, Turnaround strategy.
Implementation of Strategy: Designing of structure, Designing of effective control system, ISO 9000, Strategic system, Strategic change process.

SECTION – D
Strategic Evaluation and Control: Techniques of strategic evaluation and control, Strategic issues in technology management.
Strategic Management of non-profit organization and Entrepreneurial ventures.

Suggested Readings:
Objectives: The subject would enable the participants to understand the parameters of accountability, control and reporting system by the corporate board. The participants will have an insight into the interactive relationship among various corporate and related constituents in determining directions and performance of business organisations.

SECTION – A
Corporate Governance: Introduction and Overview.
Corporate Board: Attributes, Duties, Responsibilities, Liabilities, Shaping Directorial Competence and Board Effectiveness, Financial Institutions and Nominee Directors.

SECTION – B
Corporate Governance and Security: Corporate Disclosure and Investor Protection, Corporate Restructuring and Revival of Sick Units, Corporate Reputation, Corporate Legitimacy and Corporate Crime.

SECTION – C
Culture: An introduction, organization culture - Building and maintaining, Managing cultural diversity in organization, Indian culture characteristics.

SECTION – D
General Issues regarding Corporate Governance: Takeover Codes, Corporate Board Committees, Globalisation and Corporate Governance, Emerging Trends in Corporate Governance.

Suggested Readings:
2. C.V. Baxi: Corporate Governance, Excel books.
4. Dr. S. Singh: Corporate Governance, Excel books.
5. Swami (Dr.) Parthasarathy: Corporate Governance, biz tantra.
7. Jill Solomon: Corporate Governance & Accountability, Wiley India.
10. Subhash Chandra Das: Corporate Governance in India, Prentice Hall India.
**Objectives:** The prime focus of this workshop is on developing entrepreneurship skills in participants by sensitizing them of the competencies required and institutional framework promoting entrepreneurial spirit in India. The course also aims at giving insights into the Management of Small Family Businesses.

**SECTION – A**

**Entrepreneurship:** Concept and Definitions, Entrepreneurship and Economic Development, Classification and Types of Entrepreneurs, Entrepreneurial Competencies, Factor Affecting Entrepreneurial Growth - Economic, Non-Economic Factors, EDP Programmes, Entrepreneurial Training. Traits/Qualities of an Entrepreneurs, Entrepreneur, Manager Vs. Entrepreneur.

**SECTION – B**

**Identification and Product Selection:** Entrepreneurial Opportunity Search and Identification, Criteria to Select a Product, Conducting Feasibility Studies, Project Finalization, Sources of Information.

**SECTION – C**

**Small Enterprises and Enterprise Launching Formalities:** Definition of Small Scale, Rationale, Objective, Scope, Role of SME in Economic Development of India, SME Registration, NOC from Pollution Board, Machinery and Equipment Selection. Preparing Project Report, Project Planning and Scheduling.

**SECTION – D**

**Role of Support Institutions:** Director of Industries, DIC, SIDO, SIDBI, SIDC, SISI, NSIC, NISBUED, SFC. **Management of Small Business:** Marketing Management, Production Management, Finance Management, Human Resource Management, Export Marketing.

**Suggested Readings:**

Objective: To understand the basic concepts of operations research and its usage for business managers. The paper also deals with understanding Total Quality Management concept and principles and the various tools available to achieve Total Quality Management and to create awareness about the ISO and QS certification process and its need for the industries.

SECTION – A
Operations Research: Introduction to OR- Definition, Characteristics, Scope and Necessity of OR Models-Principles and Types.
Decision making: Decision making environment, Decision making under certainty, Decision making under uncertainty, Decision making under risk, Decision Tree Analysis.
Modelling with Linear Programming: Two variable LP Model, Graphical LP solution, Simplex Method and Duality.

SECTION – B
Network Models: Scope and Definition of Network Models, PERT, CPM, Phases of a Project, Network Arrow Diagrams, Slack, Critical Path, Float, Crashing the Network.

SECTION – C
Quality Gurus and their contributions.

SECTION – D

Suggested Readings:
Objectives: To familiarize the participants with the various issues related to hospital and health management information system so as to equip them to meet the changing needs of the health service sector.

SECTION – A
The Information Explosion: Importance of information, Impact on society, teaching and learning, Government.
Hospital Information system: Role of database in HIS; Need of Networking in HIS; Overview of Networking; topologies and its configuration; Structuring medical records to carry out functions like admissions, discharges, treatment history etc.
Computerization in pharmacy & billing; Automated clinical laboratory systems & radiology information system.

SECTION – B
The right information: The process of decision making, Literature databases, Searching the literature, Example of unit-based literature, Standards of information seeking, Future consideration.
Electronic Health Record: Functions of the health record, Changing functions of the patients record, Advantages and Disadvantages of the paper record, Optically scanned and electronic record, Automating the paper record.
Advantages and Disadvantages of the EHR, Bedside or point-or-care systems, Human factors and the EHR, Roadblocks and challenges to EHR implementation, The future of EHR.

SECTION – C
Securing the Information: Privacy and confidentiality and Law, ownership of data, Security - Computer crime, Role of healthcare professionals.
